

ECOAIR ENVIRONMENTAL LABORATORY

INDUSTRIAL EMISSIONS & AIR QUALITY TESTING DIVISION

NABL Accredited Facility | MoEFCC Recognized Environmental Laboratory
Plot No. 114, Phase-II, Sector 3, Industrial Growth Centre, India

ISO 9001:2015
ISO 14001:2015
Certified Facility

INDUSTRIAL AIR QUALITY MONITORING REPORT

AMBIENT AIR QUALITY & STACK EMISSION AUDIT SUPPORTING DOCUMENT

Industry / Client: ABC Textile Industries Pvt Ltd

Plant Location: Textile Processing Zone, Tamil Nadu, India

Monitoring Activity: Point Source & Ambient Compliance Audit

Report Number: AIR-2026-008

Monitoring Date: 20 June 2026

Report Issued: 22 June 2026

S.No	Air Quality Parameter	Metric Unit	Observed Value	Limit	Status
1	Particulate Matter (PM _{2.5})	µg/m³	42	60	COMPLIANT
2	Particulate Matter (PM ₁₀)	µg/m³	78	100	COMPLIANT
3	Sulphur Dioxide (SO ₂)	mg/Nm³	28	80	COMPLIANT
4	Nitrogen Oxides (NO _x)	mg/Nm³	39	80	COMPLIANT
5	Carbon Monoxide (CO)	mg/Nm³	1.1	2	COMPLIANT

Overall Evaluation Status: COMPLIANT

Observations: All monitored air emission parameters are within permissible environmental regulatory limits. Monitoring was conducted during normal peak production cycles to ensure representative sample validity.

Authorized Sign-off

Environmental Engineer
EcoAir Environmental Laboratory

Report Notes & Legal Conditions: 1. This analysis report is generated exclusively based on monitoring criteria mapping to industry specific National Ambient Air Quality Standards (NAAQS) and Central Pollution Control Board (CPCB) compliance directives. 2. Sampling was executed via calibrated high volume air samplers and standard automated gas analyzers. 3. This evaluation document serves as supportive verification data for State Pollution Control Board (TNPCB) technical consent evaluations.
